

Model 20/40 and 2C/4C Digital Display Boards

The digital display boards provide an interface with the 20/40 and 2C/4C control boards. Custom displays can be made to meet custom applications.

Product Description	Ordering Information
<p>2C Horizontal Two-Zone Display</p> <p>The horizontal display can be utilized with the 2C/20 control which allows the user to operate each zone of the control independently. The display has four seven-segment displays, four pushbuttons and four status LEDs for each zone. The display can be panel mounted with the optional metal bezel and overlay and is connected to the control via a ribbon cable. This display also supports the 2C/20 control being mounted directly to the back side of the display assembly, eliminating the need for the ribbon cable.</p>	<p>When ordering the horizontal display with a 2C, add option W in the display slot (reference 2C/4C data sheet for ordering code). When ordering for an existing control board, order display and mounting kit 614A119U01.</p> 

1/4 DIN Size Display

The 1/4 DIN display can be utilized with the 2C/20 and 4C/40 control and has one four-digit seven-segment display for set point and one four-digit seven-segment display for process temperature, six pushbuttons and status LEDs. The “Z” pushbutton on the display is used to scroll through the individual zone control settings. The display can be panel mounted with the optional metal bezel and overlay and is connected to the control via a ribbon cable.

When ordering with a 2C/20 or 4C/40 control board, add option 4 in the display slot (reference 2C/4C data sheet for ordering code). When ordering for an existing control board, order display and mounting kit 614A112U01.

Product Description

Ordering Information

Dual-Zone 1/4 DIN Size Display

The dual-zone 1/4 DIN display can be utilized with the 2C/20 control. The display has two four-digit seven-segment displays (one for zone 1 and one for zone 2), six pushbuttons and status LEDs. The “Z” pushbuttons on the display are used to access either of the individual zone control settings through the individual zone settings. The display can be panel mounted with the optional metal bezel and overlay and is connected to the controller via a ribbon cable.

When ordering with a 2/20C control board, add option B in the display slot (reference 2C/4C data sheet for ordering code). When ordering for an existing control board, order display and mounting kit 614A113U01.
